PROJECTS

Name: Weather Forecast

Technology's: HTML, CSS, JavaScript, React JS, Bootstrap, Google Fonts & Icons, Weather API

Description:

- This Website provides up-to-date and accurate weather information for **locations worldwide**.
- Implemented features for displaying current weather conditions, hourly, and daily forecasts.
- Gained valuable experience in **State Management, API data Fetching** and Binding, and **Single Page Application**.

Name: Grocery Mart

Technology's: React.js, React Router, JSON Server, JavaScript, Bootstrap, AOS, Typed.js, HTML, CSS

Description:

- Designed and developed a grocery shopping website using React and **JSON Server** to simulate backend APIs. The app includes a product listing page, **add-to-cart functionality**, and **dynamic routing**.
- Used **React Router** for navigation and Bootstrap for **responsive UI** design. The customer-side functionality is complete, and the Admin Panel (for managing products and orders) is currently under development.

Name: Presento

Technology's: React.js, React Router, Bootstrap, AOS, Typed.js, HTML, CSS

Description:

- Developed a responsive and modern **Profetional portfolio** inspired by the Presento template using React. Integrated **dynamic typing** effects with **Typed.js**, animated scroll effects using **AOS**, and smooth page navigation with React Router.
- project showcases professional details, project highlights, and a contact section — all designed with clean UI using Bootstrap and custom CSS. Deployed the website on Vercel for fast, live access.
